### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art of record, absent applicant's own disclosure, fails to teach the entire combination of elements set forth in the claimed invention. Specifically, the prior art of record fails to

teach a strain gauge assembled to the deformation member and configured to convert a strain according to the deformation of the deformation member to an electric signal.

See claim 1, lines 14-16. Additionally, the prior art of record fails to teach a strain gauge mounted on a portion of the bracket to produce a signal upon deformation of the portion of the bracket by the cable. See lines 9-10 of claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
